

Parents of Children in or Entering Preschool & Grades K-12

Why Your Child Needs Shots

Children must be in compliance with Idaho immunization laws in order to attend school. To be compliant, children must be up-to-date on their immunizations (shots) or have a valid exemption form on file. Whenever children are brought into group settings, there is a potential for the spread of infectious diseases. Diseases like chickenpox, measles, and whooping cough spread quickly, so children need to be protected before they enter preschool and grades K-12.

What You Need at Registration

You will need to present your child’s immunization record and/or a valid exemption form to the school at the time of registration to enroll your child. The immunization record must show the date (month, day, and year) your child was given each shot. If you do not have an immunization record or your child has not received all required shots, call your doctor or local health department for an appointment.
