

Victory Charter School

Busing-Parental Permission Restrictions

Rationale:

Victory Charter School utilizes group bus stops. Because of this, there may be longer distances to walk. A parent can send a note giving a child permission to ride home with a friend without knowing the distance from the bus stop to the house. Many families have two working parents which may mean that they don't know that anyone is coming home with their child. This is a liability for Victory Charter School.

Busing Policy Student Safety – Parental Permission Restrictions

Students will be allowed to ride their designated bus only. Parental permission slips to the bus driver will no longer be allowed. Parents of both the visiting child and the host child will send dated notes to the principal or designee that the child can visit, have the distance from the bus stop to the home and the bus stop identified in the note.

Students riding home on buses with friends will be able to do so only with a principal permission slip.

Policy History:

Adopted: April 27, 2010
